

HMV/HSV

Manual switching valve

4 port valve

Overview

The HMV and HSV Series manual switching valve is 4 port valves incorporating a sliding valve for the main valve. This valve is suitable for driving cylinders $\varnothing 20$ to $\varnothing 160$.

Features

Low sliding movement facilitates operation

A swing lever (detent integrated rotary) is used for operation.

Two types available based on application

Miniature type (Rc1/4)
Standard type
(Rc1/4, 3/8, 1/2, 3/4)
